KINDS OF BUSINESS DESCRIBED

The various kinds of business into which all wholesale establishments are classified are described below. Kind-of-business group classifications are designated by roman numerals.

I. Amusement and Sporting Goods

Bicycles and supplies.—Establishments primarily engaged in selling bicycles and bicycle supplies to retailers, to bicycle shops, and to rental agencies.

Cameras and photographic supplies.—This classification includes establishments engaged principally in selling cameras, films, photographic paper, and other photographic supplies and equipment to distributors, to retailers, and to photographic studios.

Motion picture equipment and supplies (except films).—Establishments primarily engaged in selling motion picture studio and theater equipment—raw film, projectors, talking picture apparatus and sound equipment, and theater equipment and supplies. Amateur motion picture films and equipment pertaining thereto are included under *Cameras and photographic supplies*.

Motion picture film exchanges.—Independent, export, and producer exchanges primarily engaged in renting or selling developed films for exposition. Exchanges handling advertising films and "previews" as well as those handling "shorts" and full-length pictures are included. Independent exchanges are classified by type of operation as wholesale merchants, export exchanges as exporters, and producer exchanges as manufacturers' sales branches.

Sporting goods.—Here are included establishments selling a rather general line of athletic goods for such outdoor and indoor sports as baseball, basketball, football, track and field events, hunting—small arms and ammunition—fishing, trapping, winter sports, etc. Large establishments selling chiefly to schools and other institutions are included as well as establishments selling primarily to retailers.

Toys, novelties, and fireworks.—This classification includes establishments specializing in the sale of toys, novelties, carnival premiums, games, and fireworks to distributors, civic bodies, institutions, and to concessions or places of amusement.

All other.—Establishments primarily engaged in selling at wholesale such recreational and hobby goods as stamps and philatelic supplies, billiard and bowling supplies, coin-operated amusement devices, etc. This classification also includes establishments specializing in the sale at wholesale of one or, at most, only a few items of gymnasium, athletic, and field equipment.

II. Automotive

Automobiles (new and used).—Distributors, manufacturers' sales branches, manufacturers' sales offices, and agents engaged primarily in selling passenger automobiles (new and used) and motor vehicles to distributors, to dealers, or for export are included here. Many distributors, included as service and limited-function wholesalers, do some retail business. Only those selling primarily to other distributors or to dealers are included here. Those selling chiefly to consumers are classified in the retail census.

Trucks and tractors.—Included in this classification are establishments primarily engaged in selling new or used commercial trucks, tractors, trailers, semitrailers, and related vehicles and parts. Businesses selling special-purpose tractors, such as those used for farming or road building, along with their equipment and supplies are included under their respective kinds of business rather than here. Truck and tractor dealers [illegible] though [illegible] are included here, rather than in the retail census, on the basis of kinds of goods [illegible] these dealers have regulated service departments.

Automotive accessories and equipment.—Establishments engaged chiefly in selling accessories and equipment useful and convenient in the [illegible] operation, but not considered as necessary parts, of [illegible] dealers, tools, spotlights and [illegible] seat covers, automotive chemicals, [illegible] etc. are included here. Substantial amounts of automotive parts may also be handled, but the primary business of establishments in this classification is the selling of automotive accessories and equipment.

Automotive parts.—The distinction in principle between this classification and *Automotive accessories and equipment* lies in the fact that establishments engaged principally in selling integral parts of motor vehicles, such as wheels, engines, frames, bodies, batteries, bearings, etc., are included here. The distinction is not always clear-cut nor absolute, as many houses sell both lines of merchandise. Hence, for [illegible] purposes, the figures for the two classifications might well be combined. Distributors of used, as well as of new, parts are included.

Tires and tubes.—Establishments specializing in the sale to distributors, dealers, and service shops, of tires and tubes for all classes of motor vehicles.

III. Beer, Wines, and Liquors

Beer and ale.—Distributors and manufacturers' sales branches or offices selling beer, ale, porter, stout, and other malt liquors to dealers, hotels, restaurants, etc., are included in this classification. Many beer distributors also handle soft drinks, confectionery, tobacco, and related items. Only those engaged principally in selling beer and other malt liquors at wholesale are included here.

Wines and liquors.—This classification includes establishments primarily engaged in selling all types of wines, whisky, gin, rum, brandy, liquors, etc., at wholesale, including establishments which bottle and sell wines and liquors manufactured in bulk by others. Depots supplying State liquor stores are not included in the wholesale census.

IV. Chemicals and Paints

Dyestuffs.—Establishments primarily engaged in selling dyes and dyestuffs, colors, and chemicals for use in textile and converting industries. Establishments engaged principally in selling wood and bark from which tanning materials are extracted are classified with *Forest products (except lumber)*, and not here.

Industrial chemicals.—Establishments primarily engaged in the distribution of any one or more industrial and heavy chemicals, not elsewhere classified, such as primary and intermediate coal tar products, plastic materials, compressed and liquefied gases, sulphuric and other acids, ammonia, caustic and other sodas, industrial alcohol, and other heavy chemicals.

[1] These are revised figures for 1929. The data previously issued include a number of concerns dealing in grain and petroleum and its products that were erroneously reported and classified in the wholesale census.

[2] Due to additional information which was not available at the time the previous census was taken, the 1929 data have been corrected for certain changes in classification.

[3] For comparison purposes wholesaling manufacturers and district and general sales offices, except those dealing in petroleum and its products, have been included in manufacturers' sales branches, 1929.

[4] 1929 equivalent not available.

[5] Figures for 1929 data for district and general sales offices dealing in petroleum and its products.

[6] Includes 1,438 cooperative elevators with net sales amounting to $88,193,000.

[7] Figures for 1929 not available.

[8] Due in part to the Federal Government's policy of rendering financial assistance to farmers in marketing their crops, the number of assemblers and country buyers of cotton, grain, livestock, and tobacco showed substantial decreases in 1933 as compared with 1929.

[9] 1933 equivalent not available.
